PART 1010—SUSPENSION ORDERS

[Suspension Order S-561]

CHATTANOOGA MATTRESS CO.

Chattanooga Mattress Company, 426 Chestnut Street, Chattanooga, Tennessee, a corporation, is engaged in the manufacture of mattresses, sofa bed suites and furniture. Between September 1, 1943 and November 19, 1943, the corporation processed, fabricated, worked on, assembled, or offered for sale 4,175 child's rockers of a pattern which had not been offered for sale by the corporation prior to March 15, 1943. These acts were in violation of General Limitation Order L-260. The corporation, through its officers, was familiar with the provisions of Order L-260, and its conduct constituted willful violations thereof; these violations have diverted scarce materials and labor to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, That:

§ 1010.561 *Suspension Order No. S-561.* (a) Chattanooga Mattress Company, its successors and assigns, shall not process, fabricate, or assemble any furniture as defined in Limitation Order L-260-a, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Chattanooga Mattress Company, its successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production

Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on June 14, 1944, and shall expire on September 14, 1944.

Issued this 7th day of June 1944.

Amdt. 2]

Section 933.4 *Conservation Order M-9-c* is hereby amended by adding a new paragraph (f) (4) to read as follows:

(4) *Research, developmental and experimental activities.* The provisions of this order shall not apply to the use of copper products or copper base alloy products to make experimental models or test runs, but only the minimum number of models or minimum size run needed to determine the suitability of the item for commercial production. Such models or materials shall not be distributed for the purpose of promoting sales or creating a consumer demand for such items, nor shall such items, if designed primarily for future civilian markets, be exhibited to the public. Research, developmental or experimental activities in connection with products or materials designed primarily for future civilian markets must be carried on without diverting any manpower, technical skill or facilities from activities connected with the war effort.

(3) "Shoe findings" means eyelets, hooks, tacks, nails, hobnails, screws, spikes, plates, snaps, slide fasteners, rivets, wires, slugs, studs, and other findings for any kind of shoes.

(4) "Shoes" means all kinds of boots, shoes, slippers, overshoes, and other footwear of whatever material made, and overgaiters and leggings, but not including leggings made as a part of children's clothing.

(b) *Prohibition of manufacture.* Except as provided in paragraph (e) no manufacturer may use any copper or copper base alloy in the manufacture of shoe findings.

(c) *Prohibition of delivery.* Except as provided in paragraph (e), no manufacturer of shoes or shoe findings may deliver any shoe findings containing copper or copper base alloy, and no person shall accept delivery of shoe findings containing copper or copper base alloy from any manufacturer of shoes or of shoe findings. (d) *Prohibition of use.* Except as provided in paragraph (e), no manufacturer of shoes may attach any shoe findings containing copper or copper base alloy to any types of shoes. This prohibition does not apply to shoe findings which were in the stocks of the manufacturer of shoes on or before March 31, 1942, or which are acquired after July 15, 1944.

(e) *Exceptions—(1) Exceptions for orders of certain governmental agencies.* The provisions of this order shall not apply to the production, delivery, or attaching of shoe findings when either the shoes or shoe findings are being produced for purchase by, or for the account of, or for use by, the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), where the use of copper or copper base alloy shoe findings to the extent employed is required by the applicable specifications (including performance specifications) of the governmental agency purchasing the shoes or shoe findings.

(2) *Exceptions for special shoes.* The provisions of the order shall not apply to the production, delivery, or attaching of shoe findings when the findings are to be attached to shoes of the types known as Men's or Women's Conductive Shoes, Men's or Women's Explosive Operation (non-sparking) Shoes, Men's Electrical Hazard Shoes, or Loggers Boots.

(f) *Miscellaneous provisions—(1) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Appeal.* Any appeal from the provisions of this order shall be made by filing Form WPB-1477 with the War Pro-

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

THE OPERATION OF THE PRIORITIES
SYSTEM**

[Priorities Regulation 1, Direction 2]

**TRANSFER OF TITLE IN FINANCING RATED
ORDERS**

The following direction is issued pursuant to Priorities Regulation 1:

Transfer of title for bona fide security reasons in accordance with regularly established business practices for the financing of transactions is not prohibited by War Production Board regulations and orders. For example, if a customer wants to have his purchase on a rated order financed by a finance company which is to take title for security reasons, the rated order may be placed in the name of the finance company calling for delivery to it in care of the customer. Likewise, a person who has obtained material with priorities assistance may execute a chattel mortgage on it or give a similar lien where this is done in good faith to finance his work in process. If the party financing the transaction forecloses and takes the material, he holds it subject to the restrictions of § 944.11 of Priorities Regulation 1 and other applicable orders and regulations (for example, in the case of textiles, M-328). If he cannot use it for the purpose for which it was acquired by the purchaser, he may use or dispose of it only as permitted by those restrictions.

Issued this 15th day of June 1944.

**PART 1226—GENERAL INDUSTRIAL EQUIP-
MENT**

[Supplementary Order L-193-a, as Amended
June 15, 1944]

**SPROCKET CHAIN, SPROCKET CHAIN ATTACH-
MENT LINKS AND SPROCKET CHAIN
WHEELS**

The fulfillment of requirements for the defense of the United States has created

a shortage in the supply of sprocket chain, sprocket chain attachment links and sprocket chain wheels for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.53 *Supplementary Limitation Order L-193-a—(a) Definitions.* The definitions in General Limitation Order L-193 do not apply to this order. For the purpose of this order "sprocket chain" means any chain, except ladder chain, designed for the purpose of operating over toothed sprocket wheels.

(b) *Inventory limitations.* No person who, in the course of his business, purchases and incorporates sprocket chain, sprocket chain attachment links or sprocket chain wheels into machinery or equipment manufactured in whole or in part by him, or who purchases such chain, links or wheels for resale as such, shall accept delivery thereof if his total inventory will, after acceptance, exceed what he reasonably expects to use or resell during the succeeding 45 days. No person may deliver sprocket chain, sprocket chain attachment links, or sprocket chain wheels if he knows or has reason to believe that such delivery will increase the recipient's inventory above this 45 day limitation.

(c) *Exemptions.* The provisions of paragraph (b) do not apply to (1) Army maintenance depots, Navy yards, bases, stations and depots (2) minimum production runs,¹ or (3) automotive replacement parts, as defined in Order L-158, as amended.

(d) *Violations.* Any person who willfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(e) *Appeals.* Any producer or purchaser of sprocket chain, sprocket chain attachment links or sprocket chain wheels who believes that the terms of this order result in undue hardship may appeal by letter stating the relief requested and the reasons it is necessary.

(f) *Communications.* All appeals and other communications concerning this order should be addressed to the General Industrial Equipment Division, War Production Board, Washington 25, D. C., Ref: L-193-a.

• Issued this 15th day of June 1944.

PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P-142, Direction 3, as Amended June 15, 1944]

ADVANCE AUTHORIZATION FOR SPECIAL ITEMS OF CAR MATERIALS

(a) This direction permits railroad operators to place advance orders for the following items of car materials listed in paragraph (b) (2) of Order P-142:

The following amended direction is issued pursuant to Preference Rating Order P-142:

Air Brakes—AB	Code No. CA
Hand Brakes—Power	Code No. CB
Brake Beams	Code No. CH
Couplers and Coupler Bodies	Code No. MA
Bolster Springs—Car	Code No. MC

subject to the following conditions:

(1) Advance orders for items under this direction may be placed for delivery during

each of the three calendar quarters following the quarter in which the order is placed. Thus during the second quarter of 1944, advance orders may be placed for delivery in the third and fourth quarters of 1944 and the first quarter of 1945.

(2) The operator may order for delivery in each advance quarter up to 75% of the amount of each of the above items authorized for him under Order P-142 for the first quarter of 1944. With the exception of power hand brakes (Code CB), he may use the same preference ratings, to the same extent, as were authorized for the particular item for the first quarter of 1944. For power hand brakes, he may use only a rating of AA-3 for advance quarters, regardless of the ratings authorized for that item in the first quarter of 1944.

For example, if an operator was authorized in the first quarter of 1944 to buy 100 AB Air Brakes with AA-1 rating and 200 with AA-3 rating, he may, under this direction, place orders for each advance quarter for not more than 75 with AA-1 rating and 150 with AA-3 rating. Also, if he was authorized in the first quarter of 1944 to buy 10 power hand brakes with AA-1 rating and 50 with AA-3 rating, he may, under this direction, place advance orders each quarter for 45, all with AA-3 rating.

(b) Each operator must continue to apply each quarter on Form WPB-2585 for firm authorizations in accordance with paragraph (k) (3) of Order P-142. To the extent that the firm authorization on that form differs from the advance authorization for any item under this direction, orders must be cut back, or new orders may be placed, accordingly.

(c) This direction applies to railroad and private car line operators under Order P-142 (serial numbers below 1500), but not to transit operators.

Issued this 15th day of June 1944.

PART 3281—PULP AND PAPER

[Limitation Order L-11 as Amended June 15, 1944]

CHLORINE IN PULP, PAPER AND PAPERBOARD

Whereas the production of pulp, paper and paperboard consumes large quantities of chlorine; national defense requirements have created a shortage of chlorine; action has already been taken to conserve the supply and limit the use of chlorine in the production of pulp, paper and paperboard in order to insure its availability for essential defense and civilian requirements; increasing diversion of chlorine to defense uses requires further restrictions of its use in such production:

Now, therefore, it is hereby ordered, That:

§ 3281.63¹ *General Limitation Order L-11—(a) Definitions.* For the purpose of this order:

(1) "Producer" means any individual, partnership, association, corporation or other form of business enterprise, en-

gaged in the manufacture of pulp, paper or paperboard.

(2) "Brightness" means the degree of brightness determined by the General Electric Brightness Tester.

(3) "Semi-bleached grade" means that grade of pulp which prior to June 16, 1941, had a brightness of less than 70.

(4) "Unbleached kraft" (for the purposes of paragraph (e) of this order) means a grade of paper usually made in substantial part with unbleached kraft pulp, but in which at various times certain amounts of bleached pulp or semi-bleached pulp have been used.

NOTE: Paragraph (5), formerly (4), redesignated June 15, 1944.

(5) "Calendar quarterly period" means the quarterly period commencing on the first day of the second, fifth, eighth, and eleventh months of the calendar year and ending, respectively, on the last day of the fourth, seventh, tenth, and first months of the calendar year.

(b) *General restrictions relating to pulp, paper and paperboard.* (1) No producer subject to this order shall, after the effective dates of the applicable provisions hereof, use chlorine in a quantity in excess of that specifically authorized herein or increase the brightness of pulp, paper or paperboard in excess of the degrees of brightness established herein.

(2) No producer shall increase the brightness of any pulp, paper or paperboard to a degree greater than the brightness of like pulp, paper or paperboard produced by him on June 11, 1941.

(c) *Specific restrictions relating to pulps, effective November 1, 1941.* The following restrictions in the use of chlorine shall become effective November 1, 1941:

(1) No producer shall use in any calendar quarterly period for the treatment of rag stock an average amount of chlorine per ton of rag stock treated greater than 80% of the average amount of chlorine per ton of rag stock treated used by such producer for the treatment of rag stock during the calendar quarterly period ending July 31, 1941.

(2) Except as provided in (c) (4) and (c) (6) hereof the brightness of the following pulps shall not exceed 74.

(i) Bleached sulphite.

(ii) Bleached sulphate.

(iii) Waste paper when used for conversion into bleached papers.

The brightness ceiling established by this paragraph shall be determined in one of the two following ways: The brightness of any individual batch, where a batch system is used, or the average of any eight-hour period where a continuous system is used.

(3) Except as provided in (c) (4) and (c) (6) hereof the brightness of soda pulp shall not exceed 70. The brightness ceiling established by this paragraph shall be determined in one of the two following ways: The brightness of any individual

¹ Formerly Part 990, § 990.1.

batch, where a batch system is used, or the average of any eight-hour period where a continuous system is used.

(4) The brightness ceilings established in (c) (2) and (c) (3) hereof may be exceeded to the extent that the War Production Board may permit upon application accompanied by satisfactory proof that the applicant's process of achieving a higher brightness will further the program for the conservation of chlorine embodied in this order. Such applications should be addressed to the War Production Board, and marked Ref: L-11.

(5) No producer in any calendar quarterly period shall use more chlorine in the production of semi-bleached grades than 70% of his use of chlorine for similar production during the three-month period ending July 31, 1941.

(6) Notwithstanding the limitations set forth in (c) (2) and (c) (3), any producer in any calendar quarterly period may use, per ton of pulp produced for the following purposes requiring the use of chlorine as a processing, rather than as a bleaching agent, an amount of chlorine necessary for such processing: *Provided*, That in no case shall he use more chlorine per ton of pulp produced than he used for similar purposes during the three-month period ending July 31, 1941:

(i) In the processing into paper stock of rope, jute, hemp, flax, Sunn fiber, Benares fiber or like fibers;

(ii) In the processing of pulp for use in the manufacture of sanitary pads, hospital wadding, or wadding for use in the filtering of dissolving and nitrating pulps.

(7) Except for (i), (j), (k), (l), (m), and (n) hereof, this order shall not apply to the following pulps:

(i) High alpha pulps (not less than 90% alpha cellulose content).

(ii) Dissolving pulps.

(iii) Nitrating pulps.

(iv) Pulps used in the manufacture of photographic base papers.

(d) *Specific restrictions relating to paper and paperboard, effective November 10, 1941.* (1) Except as provided in (d) (2) hereof, after November 10, 1941 the brightness of the following grades of paper and paperboard shall not exceed the brightness ceilings specified below;

PART 3293—CHEMICALS

[Allocation Order M-340, as Amended June 15, 1944]

MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 *Allocation Order M-340—(a) Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it

produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorization or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB-2947 (formerly PD-602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that it was required to fill small orders or the quantity which he acquired himself on such a small order, or

(iii) If he is a distributor who customarily delivers exclusively on small orders, any quantity.

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order

only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate shall be substantially in the form and shall be subject to the instructions stated in Appendix C and shall be in the hands of the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form WPB-2947 (formerly PD-602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) War Production Board may issue to any supplier other and further directions with respect to preparing and filing Form WPB-2947 (formerly PD-602).

(h) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Upon such application, the Board shall compute his refreshment allotment for each allotment period beginning with the period in which he applies, by using as his refreshment multiplier for each such period the figure obtained under section 7.3 (b), (c) or (d) by which his base was multiplied in computing his allotment for the corresponding allotment period in the preceding year. However, for the May-June 1944 allotment period the Board shall use the figure used in computing the applicant's allotment for the September-October 1943 allotment period instead of the one used for the May-June 1943 period. For the March-April 1945 allotment period, the Board shall use the figure used in computing the applicant's allotment for the November-December 1943 allotment period instead of the one used for the March-April 1944 period. If an applicant was not in operation during a corresponding allotment period in the preceding year, the Board shall use the figure used in computing the allotment for the corresponding allotment period in the preceding year for a similar or comparable establishment.

This amendment shall become effective June 19, 1944.

(7) The American National Red Cross, with respect to its acquisitions of products for consumption by members of the armed forces of the United States outside the United States and with respect to its acquisitions of medical supplies for use by allied prisoners of war;

to make a batch of potato chips for a designated agency, and then reuse the remaining oil to make potato chips for his other customers. If he can use the oil for five batches of potato chips, he can get replacement only for one-fifth the oil, since that was the amount used up in making the potato chips for the designated agency.)

4. Section 2.4 (c) is amended by deleting the second sentence.

5. Section 3.3 (c) is amended by deleting the second sentence.

6. Section 4.1 (g) is added to read as follows:

Section 7 (b) (1) is amended to read as follows:

(1) *Maximum prices.* This paragraph is applicable to heels and soles not listed in Appendix A, which are not the same as a heel or sole delivered or offered for delivery in the shoe factory trade by a manufacturer during the period October 1, 1941, to March 31, 1942, inclusive. The phrase "the same as" is defined in subparagraph (5) of the preceding paragraph (a). The maximum manufacturer's price for a heel or sole covered by this paragraph shall be the maximum price established under paragraph (a) for the sale by the nearest competitive manufacturer to the same class of purchaser of a heel or sole made in approximately the same contour, iron, and size and to substantially the same physical specifications as the heel or sole being priced. For example, to price under this section, a men's non-fiber eight-nail reclaimed rubber half heel, size 12/13, made with a tensile strength of 800 and an abrasion of 18, it is necessary to take the maximum price of a competitor who during the base period of October 1, 1941, to March 31, 1942, delivered or offered for delivery a men's non-fiber, eight-nail reclaimed rubber half heel, size 12/13, with an approximate tensile strength of 800 and an abrasion of 18.

This amendment shall become effective June 20, 1944.

(a) No person shall sell or deliver woodpulp at higher prices than those set forth in Appendix A of this regulation.

(b) No person shall buy or receive woodpulp in the course of trade or business at prices higher than those set forth in Appendix A of this regulation.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 3. *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states and to the District of Columbia.

SEC. 4. *Federal and state taxes.* Any tax upon, or incident to, the sale, delivery, processing or use of woodpulp imposed by any statute of the United States or statute or ordinance of any state or any subdivision thereof, shall be treated as follows in determining the seller's maximum price for such woodpulp and in preparing records of such seller with respect thereto:

If, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this regulation.

Sec. 5. Export sales. Maximum prices for export sales and sales for export shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.¹ For the purposes of the said Export Price Regulation, the base domestic price shall be the maximum price established in paragraph (a) (1), (2) and (4) per short air dry ton, f. o. b. producers mill, or f. a. s. vessel producers mill dock. On sales to a merchant or exporter who intends to export woodpulp, the maximum price shall be the maximum price established in paragraph (a) (1), (2) and (4) per short air dry ton, f. o. b. producers mill, or f. a. s. vessel producers mill dock.

Sec. 6. Application to import transactions. This regulation applies to transactions in commodities to be imported into the continental United States:

Sec. 7. Evasion. The price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to woodpulp, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

Sec. 8. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of license as provided by the Emergency Price Control Act of 1942, as amended.

Sec. 9. Licensing. The provisions of Licensing Order No. 1,² licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

Sec. 10. Records and reports. (a) Every person making sales, purchases or exchanges of woodpulp shall keep for inspection by the Office of Price Administration for so long as Emergency Price

Control Act of 1942, as amended, remains in effect, complete and accurate records of every purchase, sale or exchange of woodpulp, showing the following:

(2) Name and address of the buyer or seller.

(3) Grade and air dry percentage of woodpulp purchased, sold or exchanged.

Sec. 11. Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.³

Sec. 12. Application for adjustments. (a) Any producer of woodpulp who is directed to deliver woodpulp to any consumer by the War Production Board by an allocation or other order or directive and who is prepared to show that his mill net realization is inadequate at ceiling prices in view of his high operating costs, may apply for adjustment of his maximum prices. The amount of adjustment which may be granted will be determined by the Office of Price Administration, and will in no case exceed an amount deemed reasonably necessary to insure the applicant's production of the woodpulp in question in the light of the applicant's costs of production and his overall financial condition.

(1) Applications for adjustment shall be filed in accordance with subpart B of Revised Procedural Regulation No. 1 with the Office of Price Administration, Washington, D. C., and shall include the following data:

(i) Statement of the applicant's maximum price, the grade of woodpulp involved, and the proposed maximum price.

(ii) Statement of the applicant's actual costs involved in the manufacture and sale of the woodpulp on OPA Form 695-239 in accordance with the instructions on that form for a period of not less than one month prior to the filing of the application.

If the applicant has not been in production of the woodpulp in question, an estimate may be furnished on OPA Form 695-239.

(iii) Where required by the Administrator, statement of the applicant's overall financial condition on O. P. A. Forms A and/or B, for the accounting period or periods next preceding the filing of the application.

(iv) Statement listing the purchasers and the end-uses of the grade or grades,

if known to the seller, for which the adjustment is requested.

(v) Statement of the reasons why the applicant feels the adjustment is required.

(vi) Such other information as the Administrator may require.

(2) If at the time of the filing of the application any of the information referred to is on file, it need not be resubmitted with the application and may be incorporated in the application by reference.

Sec. 13. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver, or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

the price, if necessary, to conform with any order or ruling issued by the Administrator with respect thereto. If at the expiration of thirty days from the date of receipt of the said sworn statement, the Administrator does not issue an order establishing a maximum price lower than the petitioner's proposed price for the grade or fails to rule that the grade does not fall within the provisions of paragraph (c) of this section, the petitioner may complete any transactions made by him in the thirty day period aforesaid at his proposed price and may thereafter continue to sell such grade at prices not in excess of his proposed price unless and until the Administrator by order establishes a lower maximum price.

SEC. 12. *Petitions for amendment and applications for adjustment*—(a) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

(b) *Applications for adjustment*—(1) *When adjustments may be granted.* The Office of Price Administration may adjust the maximum price established by this regulation for any grade of groundwood specialty paper in any case in which it finds that the seller is unable to maintain his production of that grade at that price and that either:

(i) Continuance of the seller's production of that grade is required to meet a military or essential civilian need, or

(ii) Loss of the seller's production of that grade will force his customers to resort to higher priced sources of supply, and that no adequate substitute for that grade is available to his customers at a price equal to or lower than the adjusted maximum price which he requests.

(2) *Amount of relief.* The relief granted under this section shall be limited to the amount necessary to insure the maintenance of the manufacturer's production: *Provided, however,* That where an application is filed under paragraph (b) (2) above, the seller's maximum price will not be raised above the general level of prices prevailing for alternative sources of supply of the grade or an adequate substitute therefor.

(3) *Form of application.* Before filing an application for adjustment under the provisions of paragraph (b), it is suggested that each applicant obtain from the Office of Price Administration, Washington, D. If a mill is located near the crest of the Cascade Mountains and has customarily graded and sold its lumber of these species under the West Coast Lumbermen's Association Standard Grading and Dressing Rules, it may apply to the Portland, Oregon office of the Office of Price Administration for special permission to use the maximum prices in Revised Maximum Price Regulation No. 26, instead of

the prices in this Revised Maximum Price Regulation No. 94.

(3) Engelmann Spruce (*picea*), and Red Cedar (*thuja plicata*) produced in Idaho, Montana, South Dakota, Wyoming, Colorado, Utah, Nevada, Arizona, New Mexico, California, Alaska, Mexico, and in those portions of Oregon, Washington, and Canada east of the crest of the Cascade Mountains.

SEC. 3. *What transactions are covered—* (a) *Direct mill shipments.* This ceiling applies to all shipments originating at a mill, no matter who the seller is and no matter whether he usually is known as a mill, wholesaler, retailer, or anything else. It does not apply to sales out of distribution yard stock. (The prices for yard sales may be found either in Second Revised Maximum Price Regulation No. 215¹ or in the General Maximum Price Regulation,² depending on the nature of the sale and the purchaser). A shipment is regarded as originating at a mill if the lumber reaches the purchaser without ever becoming an integral part of the stock of a distribution yard. A sale is considered a sale out of distribution yard stock only if the lumber was a part of regular yard stock at the time the sale was made. For example, if a retail yard takes an order for a defense housing project, and then brings the lumber from a mill, puts it in his yard, and delivers it as needed, the sale is subject to this regulation.

(b) *How to tell a mill from a distribution yard.* The term "mill" as used here, covers what are known in the trade as sawmills, planing mills, and concentration yards. Three types of establishment are described below: The first (1), a typical sawmill or planing mill; the second (2), a typical concentration yard; and the third, (3), a typical distribution yard. An establishment which resembles (1) or (2) more than it does (3) is considered a mill; and one which resembles (3) more than it does (1) and (2) is considered a distribution yard:

(1) "A typical sawmill or planing mill" is an establishment which is chiefly engaged in manufacturing lumber from logs or rough lumber by sawing or planing; which is located in or near a lumber producing area; which makes and sells chiefly Western pine and associated species of lumber;

(2) "A typical concentration yard" is an establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock mostly Western pine and associated species of lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail shipment, and which has been located at its particular site to be near the lumber producing area;

¹ 8 F.R. 14145; 9 F.R. 221, 2553, 2948, 4227, 5214.

² 9 F.R. 1385, 5169.

(3) "A typical distribution yard" is a wholesale or retail lumber yard which gets lumber from mills or other yards; unloads, sorts, stores, and resells or re-distributes it; which regularly maintains a varied stock of lumber from different regions; which gets its lumber mostly by rail and sells mostly for truck shipment; which is equipped to make quick deliveries of many different items of lumber; and which has been located at its particular site in order to be near a lumber consuming area.

(c) *New yards.* In order to prevent violation of this regulation by unnecessary routing through yards, the Office of Price Administration will not recognize distribution yards set up after January 5, 1943, unless the new yard writes to the Office of Price Administration, Washington, D. C., and proves that it satisfies the requirements of the definition and that the purpose is not to get around this regulation by means of unnecessary yard business. Until approval is received, the new yard cannot consider itself a distribution yard for the purpose either of this regulation or any other regulation issued by the Office of Price Administration.

(d) *No quantity limits.* There are no quantity limits on the transactions covered by this regulation. All direct mill sales, large or small, are covered.

SEC. 4. *What persons are covered.* Any person who makes the kind of sale or purchase described above, for himself or others, is subject to this regulation. The term "person" includes an individual, corporation, partnership, association or any other organized group, their legal successors and representatives, the United States or any government or any of their political subdivisions or any agency of any of the foregoing.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 5. *Basic prices and cash discount—*

(a) *Basic prices.* The basic mill ceiling prices are set forth in Article V—Price Tables.

(b) *Cash discount.* If cash is paid the maximum price must be reduced by the seller's October 1941 cash discount. For example, if the October 1941 discount for cash was 2%, and the maximum price without discount according to this regulation is \$30.00, the maximum price when cash is paid is \$29.40. If the seller was not in business in October 1941 the discount for cash shall be 2%. In any case on specific written allocations issued by the Office of the Chief of Engineers, War Department, the terms 30 days net may be used regardless of former practices.

SEC. 6. *Direct mill retail sales.* An addition of \$3.50 per thousand board feet may be made on a sale of less than 20,000 ft. BM (or less than carload if by rail), to any buyer who does not purchase for

resale, where the shipment originates at a mill and the seller:

(a) Sees that the lumber is delivered to the job site at such time and in such manner as the buyer specifies. This does not mean that the seller must make free delivery. When delivery is made by private truck owned or controlled by the seller, delivery charge may be made as provided in section 7 (a) (2).

(b) Gives the buyer the privilege of exchanging the lumber and returning unused material; and

(c) Agrees to make good any shortage promptly from stocks kept on hand for that purpose.

The size of the sale is determined by the total quantity involved in the transaction without regard to whether it is broken up into smaller orders or deliveries.

SEC. 7. *Sales on delivered basis—(a) Transportation addition.* On sales on delivered basis transportation charges set forth below may be added to the maximum f. o. b. mill prices.

(1) *Common or contract carrier.* (i) When the estimated dry weights in Article VI are used, the rate times the estimated weight is the proper transportation charge even if the estimated dry weights are higher than actual weights. Estimated green weights may be used in calculating transportation charges only if the moisture content is greater than 19%. Higher estimated weights than those in Article VI may not be used. The estimated weight must be the weight for the exact kind of lumber actually shipped. For example, green weights cannot be used if dry lumber is shipped. The transportation charge may be evened out to the nearest quarter dollar per M.

(ii) When estimated weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier, evened out to the nearest quarter dollar per M.

(2) *Private truck.* (i) When shipment is by truck owned or controlled by the seller, the following amounts may be added for transportation: For distances up to and including 10 miles, \$1.50 per M'; over 10 and up to and including 20 miles, \$2.00 per M'; and over 20 and up to and including 30 miles, \$2.50 per M'. Where the distance is greater than 30 miles the seller may charge the amount of the railroad charge at the carload rate for the most similar haul or \$3.00 per M'; whichever is greater. Distance, as used in this paragraph means the distance from the mill to the point of destination as measured by the speedometer. No addition may be made for the return trip.

(ii) The provisions of this section 7 (a) (2) and (3) shall not apply to sales and deliveries of mixed species, log run lumber from mills in the "fringe area." As to these transactions, the permitted

additions for trucking by private truck and trucking to railhead are shown separately in footnotes (1) and (2), section 30.

(3) *Trucking to railhead.* When a truck haul precedes rail shipment, as when a mill located away from the railhead hauls lumber by truck to the railhead, no addition may be made for the truck haul. However, where a mill's rail connection has been abandoned since September 5, 1941, the mill may apply for special permission to make an addition.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C., and may be acted upon by letter. The addition may not be made on quotations or sales until permission has been received.

(4) *Truck delivery after rail haul.* When truck delivery follows a rail haul, there may be added for the delivery an amount not greater than the addition permitted by subparagraphs (1) and (2) of this paragraph, whichever is applicable.

(5) *All truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in subparagraphs (1) and (2) of this paragraph, since in this case delivery to the job site involves no extra expense.

(b) *Susanville rate on delivered sales to California.* Regardless of other provisions of this section, on delivered sales to purchasers in California, if shipment originates at a mill in California from which the railroad freight rate to the California destination is less than the rate from Susanville, California, to the same destination, the addition for transportation may be computed by multiplying the appropriate estimated weight as shown in Article VI by the applicable freight rate from Susanville, California to the California destination. This provision does not apply to f. o. b. mill sales nor to direct-mill retail sales.

(c) *Government bill of lading.* Where shipment is made on government bill of lading, the maximum price payable to the seller may be computed by determining what would be the maximum delivered price on the basis of estimated weights and commercial rates and subtracting therefrom the commercial rate times the actual weights.

SEC. 8. *Maximum prices for Alaskan lumber.* (a) The maximum f. o. b. mill prices for Engelmann Spruce, Red Cedar, and Incense Cedar lumber produced in Alaska and delivered to points outside the continental United States shall be the maximum f. o. b. mill prices set forth in Article V, plus an amount equal to freight under the Maritime Commission's published freight rate from Seattle, Washington, to the mill's shipping point, including surcharges, War Risk insurance, and wharfage and handling

charges under the published Seattle Wharfage and Handling rate for comparable lumber.

(b) The maximum delivered prices for such lumber shall be the maximum f. o. b. mill price arrived at according to the foregoing, plus transportation charges permitted by section 7.

SEC. 9. *Grades, services or extras not listed.* (a) If a seller wishes to sell a grade which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for a maximum price. He must provide the following information:

- (1) The requested price;
- (2) A complete description of the item to be priced;
- (3) The price differential between it and the most comparable item in the price tables, between October 1, 1941 and June 1, 1942, from the seller's own records, or if that is impossible, from the experience of the trade. If no established price differential existed, a detailed analysis of comparative value should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but the final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

(c) In all cases where special prices have been approved by the Lumber Branch of the Office of Price Administration under § 1381.507 (c) of the earlier regulation, Maximum Price Regulation 94, these special prices shall no longer apply if specific prices for the items are established by this regulation; but if no specific prices are established in the price tables, the price approved under the earlier regulation shall continue in effect.

ARTICLE III—SPECIFIC DUTIES AND PROHIBITED PRACTICES

SEC. 10. *What the invoice must contain*—(a) *Sales f. o. b. mill.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum price must be mentioned in the description. The amount added for these does not have to be separately shown.

(b) *Sales on delivered basis.* In addition to information called for in paragraph (a) above, on all delivered sales, invoice must also show the:

- (1) Point of origin of shipment;
- (2) Destination;
- (3) Rail rate, if estimated weights are used; otherwise actual amount added for transportation;
- (4) The words "Direct-mill shipment."
- (5) Any separate charge which the seller is permitted to make for truck delivery after rail haul, or for trucking to railhead, must be shown separately on the invoice.

(c) *Direct-mill retail sales.* If the "direct-mill retail sale" mark-up is permis-

sible and is added, this must be separately indicated in the invoice.

SEC. 11. *Averaging out*—(a) *Different grades, classes or sizes.* Different grades, classes, or sizes of lumber may be sold and invoiced at an average price if all the following conditions are observed:

(1) The footage of each item must be shown separately, and a piece tally must be furnished for each shipment.

(2) The average price for the lumber actually shipped must not be higher than it would have been if all the individual grades, classes, and sizes shipped had been sold separately at the individual ceiling price.

(3) If the order is shipped in more than a single carload, truckload, or boat shipment, the following invoicing and charging practices must also be followed:

(i) The invoice must show that it is part of a larger order and identify the order. It must also show the individual ceiling prices for the various items of lumber actually contained in each shipment, and the average selling price agreed upon.

(ii) The charges which may be made and collected on account for each shipment must not exceed the average price agreed upon or the total for the items in the particular shipment, whichever is the lower. Thus, if an average price of \$40.00 was quoted on items with ceiling prices ranging from \$38.00 to \$42.00, and if a car of items with ceiling price of \$38.00 was shipped, only the \$38.00 price can be charged and collected on the car. But if a car of items with ceiling price of \$42.00 was shipped, only the average price of \$40.00 could be charged on that car.

(iii) Upon completion of the order the seller must render a final invoice showing the quantity of each shipment or delivery, the freight charge for each if sold on a delivered basis, the amount received on account, the total amount due on the order at the agreed average price and a reconciliation of the total amount so computed with the maximum prices permitted by this regulation. Final payment and all necessary adjustments between the buyer and seller are to be made upon the final reconciliation.

(b) *Different freight rates.* When a single order, for which a single flat delivered price was quoted and accepted, is shipped from two or more mills to a single destination on varying freight rates, the seller may average out the transportation charges. For example, if a wholesaler bids \$33.00 per MBM on a single order of a hundred thousand feet of lumber, the ceiling price being \$30.00 per MBM and the estimated freight \$3.00, he can ship half of it on a rate resulting in a \$2.00 freight charge and half on a rate resulting in a \$4.00 freight charge.

(1) Where this practice is adopted, the seller must observe all of the following conditions:

(i) Each invoice must state that the particular shipment is part of a larger order and identify the order. It must also show the individual rates for each shipment or delivery.

(ii) The transportation charges which may be made and collected for each ship-

ment or delivery, on account, must not exceed the average transportation charge figured on the entire order or the actual transportation charge for the particular shipment based upon the permitted estimated weights, whichever is the lower.

(iii) Upon completion of the order the seller must render a final invoice showing the individual f. o. b. mill prices separately, the amount shipped from each mill, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered selling prices and also with the maximum prices permitted by this regulation. In the event that the sale was made at an average price for different grades, classes or sizes of lumber as well as an averaging-out of transportation charges, the provisions of (a) above shall also be observed. Final payment and all necessary adjustments between the buyer and seller are to be made upon the final reconciliation.

SEC. 12. *What records must be kept.* All sellers and all buyers who, in any one calendar month, sell or buy 20,000 board feet or more of any lumber covered by this regulation must keep records which will contain a complete description of the lumber involved, the name and address of the other party to the transaction, the date of the sale, and the prices. Such records must be retained for two years, for inspection by the Office of Price Administration.

SEC. 13. *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Specific practices.* The following are some of the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in October 1941. This includes decreasing credit periods or making greater charges for extension of credit.

(2) Refusing, without good reason, to ship except in specified or restricted random lengths or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths, a specific lot or shipment of lumber which is substantially equivalent to random lengths or widths, or reselling intact as specified lengths or widths a specific lot or shipment bought by the seller as standard or random lengths or widths, unless specifically permitted in the price tables. This prohibition shall not apply to shipments or deliveries which have been sorted out as to widths and lengths and then resold.

(4) Grading as a special grade, lumber which can be graded as a standard grade; or wrongly or falsely grading or invoicing lumber. Selling lumber surfaced to standard dimension thickness as common board grade is considered to be false grading and invoicing.

(5) Making additions for special specifications, services, or other extras which are not specifically permitted.

(6) Refusing to sell on an f. o. b. mill basis, or refusing to sell on a delivered basis.

(7) Failing to invoice properly and in accordance with the requirements of this regulation.

(8) Unnecessarily routing lumber through a distribution yard.

(9) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(10) Getting a higher price by charging the buyer for ripping or resawing, or charging on a basis of an original size larger than the item actually delivered (for example, charging the price of 8/4 x 8 resawn to 4/4 x 8 on a sale of 4/4 x 8) except where the items ordered and delivered are non-standard sizes not specifically priced in the tables. This prohibition has no application where the buyer specifies the larger size to be ripped or resawn into items of smaller size and the resulting items are priced higher in the tables than the original larger size; for example, the buyer may order 1 x 4 C Select, priced at \$61.00 per MBM ripped to 1 x 2. By buying the larger size ripped the price to the buyer is lower (\$62.00) than it would have been had he ordered the 1 x 2 as such (\$64.00). In this example the maximum price is \$62.00.

(11) Making the buyer take something he does not want; for example, making a buyer who orders No. 3 Common take all the upper and lower grades developing in running the No. 3.

(12) Breaking up an order or apportioning deliveries in order to get the \$3.50 direct-mill retail sale addition.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive or pay a commission for the service of procuring (including buying, selling, or locating lumber, or for any related service such as "expediting") which does not involve actual physical handling of lumber, if the commission plus the purchase price results in a total payment by the buyer of lumber which is higher than the maximum price of the lumber. For the purpose of this regulation, a commission is any compensation, however designated, which is paid for the procurement of lumber. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as lumber procurement is concerned, and where the compensation paid by the employer is a fixed salary and not based directly on the quantity, price, or value of the lumber in connection with which the service is rendered.

(d) *Combination grades.* Lumber sold on combination grades may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as No. 3 Common and better is the maximum price fixed for No. 3 common lumber. It is permissi-

ble to quote with specified higher grades as developed but when the lumber is shipped, the quantities falling in each grade must be tallied separately on a board foot basis and either loaded separately or so marked that the buyer may easily identify each grade for the purpose of checking against invoice when unloading, and separately invoiced at prices not in excess of ceiling prices for the respective grades. The provision for separating or marking grades does not apply to shop grades when sold to mill-work establishments.

SEC. 14. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purpose of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 15. *Special pricing rules.* (a) Where the buyer specifies restricted lengths or restricted widths and the shipment fails to conform, the entire shipment must be priced at the random length or random width price (unless the agreed price is lower).

(b) Where the buyer orders a random length shipment, and the given percentages of lengths as specified in footnotes to some of the price tables are not met because there is too large a percentage of shorts, the excess shorts must be priced at the separate prices for the short lengths.

ARTICLE IV—MISCELLANEOUS

SEC. 16. *Applications for adjustment or petitions for amendment—(a) Government contracts.* See Procedural Regulation No. 6⁷ for adjustment provisions on certain government contracts or sub-contracts.

(b) *Petitions for amendment.* Any person seeking an amendment of any provisions of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1⁸ issued by the Office of Price Administration.

(c) In treating with petitions for amendment or adjustment, considera-

tion will not be given to log costs which are higher than the applicable maximum purchase prices for logs established in Maximum Price Regulation 343, or any revision or amendment to that regulation. This rule shall be followed regardless of whether the petitioner gets logs by purchasing them, logging his own standing timber, contracting for the logging of his own standing timber, or any other means. All petitions in any way based on the cost of logs must show the actual cost to the petitioner of logs received at his plant during the three months immediately prior to filing the petition and the cost which would have been incurred by the petitioner if all of these logs had been purchased by him at ceiling prices.

SEC. 17. *Enforcement.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) War Procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to war procurement agencies and buyers to whom lumber has been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department or any of their agencies.

SEC. 18. *Licensing.* The provisions of Licensing Order No. 1,⁹ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 19. *Grades.* All grades and size terms appearing in this regulation refer to, and have the meaning given in current Grading and Dressing Rules issued by the Western Pine Association.

ARTICLE V—PRICE TABLES

SEC. 20. *Ponderosa pine.* For Ponderosa pine lumber (and other species commercially sold as Ponderosa, Western, or Mexican pine lumber, if not specifically priced in another section) the maximum prices f. o. b. mill per one thousand feet board measure, surfaced, and air dried or kiln dried (except where otherwise specified in price tables), in mixed or straight load shipments, shall be as follows:

⁷ 7 F.R. 5087, 5684; 8 F.R. 6173, 6174, 12624.

⁸ 8 F.R. 6173, 11806; 9 F.R. 1534, 3075.

If shipped surfaced and resawn the two resawn pieces shall measure 1½".

21. Any prices based on a percentage addition or deduction are to be figured to the nearest 25 cents.

22. When 8/4 is resawn for the purpose of procuring 4/4, the product must be regraded and sold at the grade price applying to the 4/4 size of the grade actually produced.

SEC. 29. *Maximum prices for lumber produced in the "fringe area" and Canada and Mexico.* (a) For lumber produced in the fringe area, in Canada, or in Mexico (except as covered by paragraph (c) of this section), which is separated as to species and sold on grade, the maximum prices shall be delivered prices consisting of the f. o. b. mill prices set forth in the appropriate price table plus an amount equal to estimated freight charges based on estimated weights from Article VI times the carload rate from the appropriate basing point shown below to destination. ("Destination" means the final point to which the lumber moves in "direct-mill shipment" as defined in section 7 (a) (1).) The basing points are:

- (1) Fringe area (South Dakota, Wyoming, Colorado, Utah, Nevada, Arizona and New Mexico) Spokane, Washington; Klamath Falls, Oregon; or Susanville, California—whichever produces the lowest rate to destination.

- (2) Canada: Spokane, Washington.
- (3) Mexico: Susanville, California.

(b) Since the maximum prices established by paragraph (a) of this Section are delivered prices, no transportation additions other than "basing-point" freight to destination are permitted, and section 7 does not apply. In every case the maximum price must finally be determined according to paragraph (a) above

as a delivered price at final destination. As to pricing "f. o. b. mill" note the following examples—

(1) In a sale to a distribution yard at the mill's shipping point, since shipping point and final destination are the same, the addition for basing-point freight may be made even though the sale has all the usual characteristics of a sale "f. o. b. mill".

(2) If either the mill or a wholesaler should make an "f. o. b. mill" sale for direct-mill shipment the maximum price is the price at final destination established under paragraph (a), and, therefore, the "f. o. b. mill" price would be less than the price receivable in example (1), depending upon the difference between the through rate from basing-point to destination and the combination of locals from basing-point to mill and mill to destination. For example, if estimated freight based on freight rate from basing-point direct to final destination were \$10.00 per M ft., and freight on a combination of locals from basing-point to mill and mill to final destination were \$12.00, "f. o. b. mill" price must be reduced by \$2.00 so that price at final destination would be the same in either event.

(c) *Government purchase; Mexican Pine Lumber.* The maximum price for lumber produced in Mexico and imported for the account of or for direct sale to a United States Government agency or to a Government contractor to whom such lumber has been allocated by the Central Procurement Agency, shall be a price f. o. b. the port of entry consisting of the maximum f. o. b. mill price set forth in the appropriate price tables plus estimated railroad freight charges from Susanville, California to the port of entry computed on the carload rate and using estimated weights given in Article VI. Additions for further transportation beyond the port of entry may be made in accordance with section 7.

Sec. 30. *Maximum prices for mixed species, log run.* For Mixed Species (not separated as to species) Log Run (not separated as to grade), produced in the States of South Dakota, Wyoming, Colorado, Utah, Nevada, Arizona, and New Mexico, the maximum prices f. o. b. mill per thousand feet board measure, in any size load or shipment, shall be as follows:

MIXED SPECIES—LOG RUN

Green rough.....	\$28.50
For surfaced stock.....	add \$3.00
For dry.....	add \$2.00
For specified lengths.....	add \$1.00

Notes on mixed species—log run:

(1) *Truck delivery by private truck.* When shipment is by truck owned or controlled by the seller, the following amounts may be added for transportation: For distances up to and including 10 miles, \$1.50 per M; over 10 miles and up to and including 20 miles, \$2.00 per M; over 20 miles and up to and including 30 miles \$2.50 per M; over 30 miles an addition of 5 cents per mile per M feet may be added to the \$2.50 per M charge permitted for first 30 miles. Distance, as

used in this paragraph, means the distance from the mill to the point of destination as measured, by the speedometer. No addition may be made for the return trip.

(2) *Trucking to railroad.* When a truck haul precedes rail shipment, as when a mill located away from a railroad hauls lumber by truck to the railroad, no addition may be made for the truck haul. However, where a mill's rail connection has been abandoned since September 5, 1941, the mill may apply for special permission to make an addition.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C., and may be acted upon by letter. The addition may not be made on quotations or sales until permission has been received.

ARTICLE VI—PERMITTED ESTIMATED WEIGHTS

PINE TAR AND PINE TAR OIL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 446 is amended in the following respects:

1. The definition of "Dealer" in section 9 (a) is amended to read as follows:

"Dealer" means a person who purchases pine tar or pine tar oil and resells it in substantially the same form, but does not include a person selling at retail.

2. A new definition is added to section 9 (a) between the definitions of "Dealer" and "Drums" as follows:

"Selling at retail" means selling to an ultimate consumer other than an industrial or commercial user.

3. Appendix A (b) (1) is amended to read as follows:

(1) The dealer's maximum price for a sale of pine tar or pine tar oil established by the General Maximum Price Regulation plus any increase in the price which he is required to pay to the supplier from whom he purchases (not in excess of the increase allowed the supplier under this regulation) over the highest price paid by him to that supplier for such pine tar or pine tar oil during March 1942, or, if no purchases were made by him during March 1942 from such supplier, during the last calendar month of 1942 prior thereto during which such purchases were made by him.

This amendment shall become effective June 20, 1944.

PART 1408—GLASS AND GLASS CONTAINERS

[MPR 382; Amdt. 6]

WIDE MOUTH GLASS CONTAINERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 382 is amended in the following respects:

1. Section 1.2 is amended to read as follows:

Sec. 1.2 *Prohibition against the sale of containers at higher than maximum prices.* On and after May 27, 1943, regardless of any contract, agreement, lease, or other obligation, no manufacturer shall sell or deliver any containers, as defined in section 1.11 (a) hereof, and no person shall buy or receive any of the foregoing products in the course of trade or business from a manufacturer, at prices higher than the maximum prices set forth in this regulation, and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of containers to a purchaser if prior to May 27, 1943, such containers had been received by a carrier, other than a contract carrier owned or controlled by the seller, for shipment to such purchaser. The provisions of this section shall also be inapplicable to sales between manufacturers made pursuant to section 1.12 of this regulation.

¹ 8 F.R. 6275, 8339, 10618, 11813, 13251; 9 F.R. 4197.

2. Subparagraph (4) of paragraph (a) of section 1.11 is amended to read as follows:

(4) "Manufacturer" means a person operating one or more factories or plants which produce wide mouth glass containers and includes any sales subsidiary or commission salesman or affiliate of such person. For the purposes of section 1.12 of this regulation, the term "manufacturer" also includes any person who purchases wide mouth glass containers for resale, as part of the general line of glass containers produced by him, to the same trade classifications through which the original producers usually distribute such commodities.

3. Section 1.12 is added to read as follows:

SEC. 1.12 *Sales between manufacturers.* (a) Any manufacturer of wide mouth glass containers subject to this regulation may, subject to the filing provisions of paragraph (b) of this section, offer to sell, sell, and deliver any such commodity or commodities to any other manufacturer subject to this regulation, at a price agreed upon by the seller and the buyer, when the price so agreed upon is in excess of the maximum price for the seller under this regulation, under the following conditions:

(1) Both the seller and the buyer must be "manufacturers" as the term is defined in this regulation.

(2) Any increase in price resulting from the agreement under this section must be absorbed by the buying manufacturer and must not be reflected, directly or indirectly, in the resale price; nor may such increase be used as a basis for a request for an increase in price by way of an application for adjustment or petition for amendment under this regulation.

(b) Before any sale or delivery may be made at the price arrived at pursuant to paragraph (a) above, the buying manufacturer must submit a statement to the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., showing:

(1) The names of the selling and buying manufacturers; and

(2) A specific statement from the buyer that the increase in price will not be passed on in the resale of the commodity or commodities and that such increase resulting from the agreement will not be made the basis for an application for adjustment or petition for amendment under this regulation.

4. Section 4.8 is amended to read as follows:

SEC. 4.8 *Maintenance of customary discounts and allowances.* The maximum prices established by this regulation shall be reduced by 1 percent for payment within 10 days of the date of invoice and shall in no case be increased by any charge for extension of credit, except where such charge was customarily made by the manufacturer during July 1941.

All price or other differentials, whether published or unpublished, which were or would have been allowed in the sale of containers other than standard contain-

ers during July 1941 by any manufacturer to purchasers in contract or greater quantities, or to any other class of purchaser who resells the container as such, must be maintained and continue to be so allowed, except on sales between manufacturers made pursuant to the provisions of section 1.12 above. Similar price or other differentials are not required in the case of standard containers as defined in section 1.11 (a) (2) above.

This Amendment No. 6 shall become effective June 20, 1944.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 142]

SALES OF STEAM DISTILLED TURPENTINE, DIPENTENE, SOLROS AND WOOD ROSIN SIZE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 4.27 is added to read as follows:

SEC. 4.27 *Sales of steam distilled turpentine, dipentene, solros, and wood rosin size—(a) Maximum prices.* The maximum prices for sales of steam distilled turpentine, dipentene, wood rosin size, and processed wood rosin used in

the manufacture of core oil known as solros shall be those established under any other provisions of the General Maximum Price Regulation, or those set forth below, whichever are higher:

(1) *Sales by producers—(i) Steam distilled turpentine, dipentene, and solros—(a) Base maximum prices.*

Steam distilled turpentine. \$0.68 per gallon in tank cars f. o. b. plant.

Dipentene. \$0.49 per gallon in tank cars f. o. b. plant.

Processed wood rosin used in the manufacture of core oil known as solros. \$3.90 per hundred pounds in carload drums f. o. b. plant.

(b) *Differentials.* Maximum prices for sales in other containers and quantities shall be established by applying to the base prices set forth in (a) above the dollar and cent differentials, discounts and allowances established for such sales under any other provisions of the General Maximum Price Regulation.

(ii) *Wood rosin size—(a) Maximum prices.* The maximum price per hundred pounds shall be a figure equal to total costs per hundred pounds.

(b) *Definition.* "Total cost per hundred pounds" means the sum of the following:

(1) Direct material costs per hundred pounds during the first quarter of 1944, except as noted below with respect to purchased wood rosin. In computing the cost of the quantity of wood rosin contained in 100 pounds of the wood rosin size being priced, a weighted average, based on the percentage of wood rosin the manufacturer purchased and the percentage the manufacturer himself produced during the first quarter of 1944, shall be used. The cost per hundred pounds of the wood rosin purchased shall be the delivered price per hundred pounds in the customary quantities and containers the manufacturer is currently required to pay (not in excess of the supplier's maximum price plus freight costs, if any). The cost per hundred pounds of the wood rosin the manufacturer himself produced shall be the lowest price per hundred pounds f. o. b. plant he charged for such wood rosin during the first quarter of 1944 (not in excess of his maximum price), less his selling and administrative expense per hundred pounds during the first quarter of 1944.

(2) Direct labor cost per hundred pounds during the first quarter of 1944. Increases in labor costs since October 3, 1942, may be considered only if such increases were approved by the War Labor Board or War Labor Board approval was not necessary.

(3) Other manufacturing costs per hundred pounds during the first quarter of 1944, directly assignable to the production of the size being priced. This may include indirect labor, factory supplies, repairs and maintenance of building, machinery and equipment, insurance, property taxes, depreciation at normal rates on plant and equipment actually used in manufacture, purchased utilities services, and other items commonly associated with factory operation.

* Copies may be obtained from the Office of Price Administration.

¹ 9 F.R. 3581, 3590, 4391, 4948, 5268.

(4) General selling and administrative expenses per hundred pounds during the first quarter of 1944. This includes executive and administrative salaries, office expense, commissions, advertising, and similar items but not including income or excess profit taxes, charges to war reserves, or reserves for contingencies.

(c) *Reports.* The maximum price determined for the wood rosin size being priced under (a) above and the following information shall, before such wood rosin size is offered for sale at the adjusted maximum price, be reported by the producer to the Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C.:

(i) Cost of grade of wood rosin used per hundred pounds of size being priced computed in accordance with (b) (1) above on the basis of the following:

(i) Amount used in size being priced during first quarter of 1944 broken down as follows:

(A) Amount purchased by manufacturer in pounds.

(B) Amount produced by manufacturer in pounds.

(ii) Amount used per hundred pounds of size being priced in pounds.

(iii) Current delivered purchase price per hundred pounds in customary quantities and containers.

(iv) Cost of that produced by manufacturer as follows:

(A) Lowest price per hundred pounds f. o. b. plant charged by manufacturer during first quarter of 1944.

(B) Less amount deducted for selling and administrative expense per hundred pounds during first quarter of 1944.

(2) Other material costs per hundred pounds of size being priced as defined in (b) (1) above.

(3) Direct labor cost per hundred pounds of size being priced as defined in (b) (2) above.

(4) Other manufacturing costs directly assignable to the production per hundred pounds of the size being priced as defined in (b) (3) above.

(5) General selling and administrative expenses per hundred pounds of the size being priced as defined in (b) (4) above.

(6) Total cost per hundred pounds of the size being priced (sum of items (1), (2), (3), (4), and (5)).

G. H. HARDIN AND CO.

PROCEEDINGS FOR REVOCATION OF LICENSES

Order revoking licenses, directing surrender of licenses, and requiring records to be furnished.

To: G. H. Hardin and Company, Rec-
tor, Clay County, Arkansas.

Based upon the records in this mat-
ter, including your answer, I make the
following findings of fact:

1. On May 11, 1944, a specification of
charges against you, setting forth vio-
lations of the Federal Explosives Act (55

Stat. 863), as amended, and the regulations pursuant thereto, of which you were accused, was mailed to you giving you notice to mail an answer within 15 days from May 11, 1944, answering the charges against you and requesting an oral hearing if you wished.

2. More than 25 days have elapsed since May 11, 1944. The length of time required for mail to be delivered to the Bureau of Mines, Washington, D. C., from Rector, Arkansas, does not exceed four days. The only communication received from you is your answer dated May 24, 1944. You have not requested an oral hearing.

3. You have admitted that you sold explosives to E. M. Crowson and to other persons who at the times of such sales were not licensed under the Federal Explosives Act, and that you thereby violated section 2 of the act.

4. You have admitted that you sold explosives without requiring the purchasers to exhibit licenses issued to them under the act and without having copies of such licenses in your files; and that you thereby violated section 15 of the regulations.

5. You have admitted that you failed to keep a full, detailed, and tabulated record of your transactions in explosives, and that you thereby violated section 5 of the act and section 14 (d) of the regulations.

6. You have admitted that on or about April 11, 1944, you stored high explosives in an amount exceeding 125 pounds otherwise than in a permanent magazine complying with the standards set forth in section 25 (a) of the regulations, and that you thereby violated sections 24 and 25 (a) of the regulations.

7. You have admitted that on or about April 11, 1944, you stored high explosives in an amount exceeding 125 pounds on premises not marked with a sign containing the words "Explosives—Keep Off," and that you thereby violated section 12 of the act and section 25 (a) (2) of the regulations.

8. You have admitted that on or about April 11, 1944, you stored detonators in an amount less than 5,000 otherwise than in a permanent magazine complying with the standards set forth in section 25 (a) of the regulations or in a box-type magazine complying with the standards set forth in section 25 (b) of the regulations, and that you thereby violated sections 24 and 27 (c) of the regulations.

9. You have admitted that on or about April 11, 1944, you stored detonators in an amount less than 5,000 in a box which was not painted red or another distinctive color and which was not clearly and conspicuously marked "explosives," and that you thereby violated section 27 (c) of the regulations.

10. You have admitted that on or about April 11, 1944, you permitted Amzie McCord, a person not individually licensed under the act, to have in his possession a key to the building in which your explosives were stored and to enter that building unaccompanied by a person so

licensed, and that you thereby violated section 24 (e) of the regulations.

11. You have violated the act and the regulations in the particulars set out in findings numbered 3 through 10.

Now, therefore, by virtue of the authority vested in me by the Federal Explosives Act and the regulations thereunder, I hereby order:

1. That all licenses issued to you under the Federal Explosives Act be and they are hereby revoked as of midnight, June 30, 1944.

2. That prior to midnight June 30, 1944, you shall sell or otherwise dispose of, to properly licensed persons, or destroy, all explosives and ingredients of explosives owned or possessed by you or consigned to you or which are in your custody.

3. That after having sold or otherwise disposed of all the explosives or ingredients of explosives as required by paragraph 2 of this order you shall, prior to midnight, June 30, 1944, deliver or mail to G. M. Kintz, Supervising Engineer, United States Bureau of Mines, 1416 Gulf States Building, Dallas 1, Texas, a sworn statement of your transactions in and destructions of explosives and ingredients of explosives beginning with the date of this order and ending with the final sale or other disposition or with the final destruction of the explosives and ingredients of explosives as required above. The statement shall set forth the amount of each kind of explosives and ingredients of explosives which you had on hand at each location at the opening of business on the date of this order, the amount of each kind acquired by you that day and each day thereafter, the dates on which acquired, the names and addresses of the persons from whom acquired, the amount of each kind sold or otherwise disposed of by you, the dates on which sold or otherwise disposed of, the names and addresses and the numbers and dates of the Federal explosives licenses of the persons to whom sold or otherwise disposed of, the amount of each kind destroyed by you, the dates on which destroyed, and the places where destroyed.

4. That prior to midnight, June 30, 1944, you shall surrender all licenses issued to you under the Federal Explosives Act and all copies thereof by mailing or delivering them to G. M. Kintz, Supervising Engineer, United States Bureau of Mines, 1416 Gulf States Building, Dallas 1, Texas.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act, punishable by a fine of not more than five hundred dollars (\$500), or imprisonment for not more than one year, or by both such fine and imprisonment.

This order shall be published in the FEDERAL REGISTER.

Dated at Washington, D. C., this 12th day of June 1944.

OFFICE OF PRICE ADMINISTRATION.

[RO 5C, Administrative Exception Order 9]

DEFENSE SUPPLIES CORPORATION

EXCEPTIONS FOR CERTAIN TRANSACTIONS

1. Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc., is currently engaged in purchasing rationed gasoline in the Texas-Louisiana Gulf Coast refining area and transporting such gasoline by pipe line to the New York area where such gasoline is sold and delivered to the United States Navy or to licensed distributors,

as that term is defined in Ration Order No. 5C, and from time to time in the future may desire to purchase quantities of gasoline from licensed distributors and to sell such quantities of gasoline to the United States Navy and licensed distributors. The petroleum products which Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc., is now purchasing and selling and proposes to purchase and sell are "gasoline" within the meaning of Ration Order No. 5C and are, therefore, subject to rationing. All purchases, transportation and deliveries of gasoline are effected under directives issued by the Petroleum Administrator for War.

2. Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc., is not required to account for State motor fuel taxes imposed thereon directly to the motor fuel tax administration of the State or States where it desires to purchase and sell gasoline for the reason that it is engaged primarily in the business of transporting such gasoline by pipe line from the Texas-Louisiana Gulf Coast refining area to the New York area, and, therefore, is not a licensed distributor as that term is defined in Ration Order No. 5C.

Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc., would not be able to carry out the proposed gasoline transactions by qualifying as an intermediate distributor for the reason that it does not have any fixed storage capacity and its method of operation is not adaptable to the requirements of Ration Order No. 5C that ration evidences must be surrendered in exchange for transfers of gasoline.

The effectiveness of the gasoline rationing program would not be impaired if purchases and sales of gasoline in the manner described were permitted without requiring a surrender of ration coupons or other evidences: *Provided*, That War Emergency Pipelines, Inc., acting for and on behalf of Defense Supplies Corporation, shall prepare in triplicate a Reconciliation Statement (Form OPA R-550) for operations for each calendar month and file the original and one copy thereof with the Office of Price Administration on or before the 20th day of the month following the month for which the report is made; that upon the sale of gasoline to the United States Navy shall require the surrender of a properly executed Acknowledgment of Delivery (Form OPA R-544) in exchange therefor which shall be deposited in a ration bank account to be opened by Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc.; and, that a certified check shall be made payable to the Office of Price Administration for the gallonage of gasoline represented by the Acknowledgments of Delivery and submitted to the Office of Price Administration on or before the 20th day of the calendar month following the month in which the transfers were made.

Only a limited number of persons and transactions would be affected by the granting of an Administrative Exception Order, and the relief thus granted would in no way affect eligibility, use or

need of any person. Defense Supplies Corporation, acting by and through War Emergency Pipelines, Inc., would be treated in the same manner in which licensed distributors are now treated by Ration Order No. 5C except that it would make no monthly report to a State motor fuel tax administration but would instead make a similar monthly report to the Office of Price Administration.

Upon the foregoing statement of circumstances, *It is hereby ordered*, That, subject to the conditions in this order, the following transactions be excepted from the requirements of Ration Order No. 5C as set forth below:

1. If you are a manufacturer of frames for upholstered furniture, you may, upon filing the report required by subparagraph (5) below collect the 5% adjustment charge mentioned in paragraph (d) (1) above on all deliveries of frames for upholstered furniture made after May 9, 1944, *Provided*, That you have billed and stated the adjustment charge separately. SECURITIES AND EXCHANGE COMMISSION.

[File No. 54-98]

WASHINGTON RAILWAY AND ELECTRIC CO.
NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 14th day of June 1944.

Notice is hereby given that Washington Railway and Electric Company, a registered holding company and a subsidiary of The North American Company, also a registered holding company, has filed a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for the simplification of its holding company system. The North American Company owns 51,827.8 shares (1,630 $\frac{3}{4}$ shares of which are represented by participating units) of the 65,000 shares of the common stock of Washington Railway and Electric Company. Washington Railway and Electric Company owns: (a) all, 90,000 shares, of the common stock of Potomac Electric Power Company, an electric utility company operating in the District of Columbia and adjacent areas, (b) 120,000 shares of the 240,000 shares of the capital stock of Capital Transit Company, a street rail-

way and bus company operating in the District of Columbia and adjacent areas, (c) all of the capital stock and all of the bonds of The Washington and Rockville Railway Company of Montgomery County, a registered holding company, (d) 50,000 shares of the 69,250 shares of the capital stock of Braddock Light & Power Company, Incorporated, a small electric utility company operating in Virginia, and (e) 3,334 shares of the 5,000 shares of the capital stock of Great Falls Power Company, a land company. Capital Transit Company owns: (a) all of the common stock and indebtedness of Montgomery Bus Lines, Incorporated, a bus company operating in Maryland, and (b) all of the capital stock of The Glen Echo Park Company, a company operating an amusement park in Maryland. The Washington and Rockville Railway Company of Montgomery County owns: (a) the remaining 19,250 shares of the capital stock of Braddock Light & Power Company, Incorporated, and (b) the remaining 1,666 shares of the capital stock of Great Falls Power Company. With the exception of serial notes of Braddock Light & Power Company, Incorporated, in the principal amount of approximately \$20,000 held by certain individuals, Washington Railway and Electric Company, Potomac Electric Power Company, and Capital Transit Company are the only system companies which have publicly-held securities. If the proposed plan is consummated the following changes will occur in the structure of Washington Railway and Electric Company's system: (a) Washington Railway and Electric Company, The Washington and Rockville Railway Company of Montgomery County, and Great Falls Power Company will be liquidated and dissolved; (b) Braddock Light & Power Company, Incorporated, will become a wholly-owned subsidiary of Potomac Electric Power Company; and (c) Potomac Electric Power Company and Capital Transit Company will become direct subsidiaries of The North American Company.

All interested persons are referred to the plan which is on file in the office of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

1. Washington Railway and Electric Company (Washington Railway) proposes to call for redemption its Consolidated Mortgage 4% Bonds, due December 1, 1951 (of which \$3,720,500 have been assumed by Capital Transit Company), in the aggregate principal amount of \$6,858,900;

2. Washington Railway proposes to cause Potomac Electric Power Company (Potomac Electric) to call for redemption all of the presently outstanding preferred stock of Potomac Electric consisting of 6% cumulative preferred stock having an aggregate par value of \$2,000,000 and 5 $\frac{1}{2}$ % cumulative preferred stock having an aggregate par value of \$5,000,000;

3. Washington Railway proposes to cause Potomac Electric to issue 85,000 shares of new 5% cumulative preferred stock, having a par value of \$100 per share, to Washington Railway as a divi-

dend; this proposal will result in a transfer of \$8,500,000 from the earned surplus account of Potomac Electric to its capital stock account. Dividends on the new preferred stock will be cumulative from the effective date of the plan. The new preferred stock will have a call price of \$120 per share during the first five years from the dividend payment date next succeeding the date of initial issue, of \$115 during the next succeeding five years, of \$110 during the next succeeding five years, and of \$105 thereafter; will be entitled to ten votes per share; and will have a liquidating preference of \$100 per share plus cumulative and unpaid dividends in the event of voluntary or involuntary liquidation.

4. Washington Railway proposes to retire the 85,000 shares of its own 5% cumulative, non-callable preferred stock having a par value of \$100 per share by delivering to the holders thereof for each share of such stock (a) one share of the new 5% cumulative preferred stock of Potomac Electric, or (b) at the option of the holder, if such option is exercised within 30 days after the effective date of the plan, the sum of \$100 in cash; plus, in either case, (c) accrued dividends to the effective date of the plan;

5. Washington Railway proposes to cause Potomac Electric to convert the 90,000 shares of its presently outstanding common stock having a par value of \$100 per share into 900,000 shares of new common stock having a par value of \$10 per share;

6. Washington Railway proposes to cause Potomac Electric to issue 1,700,000 shares of new common stock having a par value of \$10 per share to Washington Railway as a dividend; this proposal will result in a transfer of \$17,000,000 from the earned surplus account of Potomac Electric to its capital stock account;

7. Washington Railway proposes to retire its common stock by giving the holders thereof the opportunity, during a period of 18 months beginning on the effective date of the plan to withdraw 40 shares of the new common stock of Potomac Electric and 1.846 shares of the capital stock of Capital Transit Company upon the surrender of one share of the common stock of Washington Railway and the payment of \$50 in cash if such payment is made within 15 days after the effective date of the plan; if such payment is not made during such 15-day period, the cash payment shall be the sum of \$50 plus \$1.20 per share for each month which has expired between the effective date of the plan and the date of the surrender, less dividends applicable to the shares of Potomac Electric and Capital Transit Company to be delivered upon the surrender of the common stock of Washington Railway. The North American Company will surrender the common stock of Washington Railway owned by it before the expiration of the aforesaid 15-day period and will pay to Washington Railway the sum of \$50 in cash for each share surrendered. Upon the expiration of the 18-month period, the public holders of the common stock of Washington Rail-

way who have not exercised the aforesaid withdrawal privilege will receive in lieu of their holdings their proportionate share of the net proceeds from the sale by Washington Railway of the remaining shares of the common stock of Potomac Electric and Capital Transit Company then owned by Washington Railway, less the sum of \$71.60 for each share of the common stock of Washington Railway owned by them, plus their proportionate share of the dividends received during said period upon the shares of common stock of Potomac Electric and Capital Transit Company so sold. (Each Participating Unit which represents 1/40 interest in a share of the common stock of Washington Railway will be accorded the same treatment as though it were 1/40 of a share of common stock of Washington Railway.)

8. Washington Railway proposes not to pay any dividends on its common stock after the effective date of the plan;

9. Washington Railway proposes to cause Potomac Electric to buy all of the capital stock of Braddock Light & Power Company, Incorporated, from Washington Railway for \$632,500 in cash;

10. Washington Railway proposes to cause the transfer of the real property of Great Falls Power Company to Potomac Electric in fulfillment of existing contractual obligations to Potomac Electric;

11. Washington Railway proposes to cause The Washington and Rockville Railway Company of Montgomery County and Great Falls Power Company to dissolve and in connection therewith Washington Railway will receive all the remaining assets of these companies and assume all of their remaining liabilities;

12. Washington Railway proposes to obtain the funds for the redemption of its Consolidated Mortgage 4% Bonds, due December 1, 1951, by a bank loan of approximately \$7,200,000 which loan will be reduced, as of the effective date of the plan, to about \$3,250,000 by the use of (1) treasury cash, (2) the proceeds from the sale of the capital stock of Braddock Light & Power Company, Incorporated, and (3) cash in the approximate amount of \$3,720,500 to be received either from Capital Transit Company in satisfaction of its obligation with respect to \$3,720,500 principal amount of the last mentioned bonds which have been assumed by Capital Transit Company, or from the sale of new bonds which may be issued by Capital Transit Company in fulfillment of its obligation and in lieu of a cash payment. The remainder of the bank loan will be paid, after the effective date of the plan, by the application of the proceeds from the contributions of the common stockholders of Washington Railway or from part of the proceeds from the sale of the common stocks of Potomac Electric and Capital Transit Company as set forth in paragraph numbered 7 above;

13. Washington Railway proposes to cause Potomac Electric to obtain the funds necessary to redeem its presently outstanding 6% and 5½% cumulative preferred stock (\$7,490,000) and to purchase the capital stock of Braddock Light & Power Company, Incorporated, (\$632,500) by (1) a temporary bank loan of not to exceed \$4,500,000, (2) the use of

treasury cash, and (3) the issuance and sale of unsecured notes in a principal amount not to exceed \$3,000,000 maturing in equal annual installments over a period of not more than six years. Within six months after the effective date of the plan, the aforesaid temporary bank loan will be liquidated by the issuance and sale by Potomac Electric of additional shares of its common stock.

14. Washington Railway proposes thereafter to transfer its then remaining assets (anticipated to consist of cash in an amount between \$200,000 and \$700,000) to Potomac Electric in consideration of the latter company assuming all of the remaining liabilities, if any, of Washington Railway. (The plan recites that the only known liabilities to be covered by such assumption will be the contingent liability of Washington Railway as guarantor on approximately \$3,574,000 principal amount of underlying bonds of Capital Transit Company, in the event such bonds are not refunded by Capital Transit Company prior to their assumption by Potomac Electric.)

15. Washington Railway proposes to dissolve upon the completion of the above transactions.

If this Commission should approve the proposed plan for the simplification of the holding company system of Washington Railway and Electric Company, that company will request this Commission to apply to a United States District Court pursuant to sections 11 (e) and 18 (f) of said act to enforce and carry out the terms and provisions of the plan. The plan states that its consummation is also dependent upon the enactment of legislation by the Congress of the United States authorizing certain of the proposed transactions which are not permitted by existing laws and, as to certain aspects, is subject to the approval of the Public Utilities Commission for the District of Columbia.

The Commission being required by the provisions of section 11 (e) of said act, before approving any plan thereunder, to find, after notice and opportunity for hearing, that the plan of Washington Railway and Electric Company, as submitted or as modified, is necessary to effectuate the provisions of section 11 (b) and is fair and equitable to the persons affected by such plan;

It is hereby ordered, That a hearing on the plan of Washington Railway and Electric Company for the simplification of its holding company system be held on the 18th day of July 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on such date by the hearing room clerk in Room 318. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before the 12th day of July 1944.

It is further ordered, That Allen McCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby

authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of this hearing be given to Washington Railway and Electric Company, The North American Company, Potomac Electric Power Company, The Washington and Rockville Railway Company of Montgomery County, Capital Transit Company, Braddock Light & Power Company, Incorporated, Great Falls Power Company, the Public Utilities Commission of the District of Columbia, the Public Service Commission of Maryland, the State Corporation Commission of Virginia and to all other persons; such notice to be given to Washington Railway and Electric Company, The North American Company, Potomac Electric Power Company, The Washington and Rockville Railway Company of Montgomery County, Capital Transit Company, Braddock Light & Power Company, Incorporated, Great Falls Power Company, the Public Utilities Commission of the District of Columbia, the Public Service Commission of Maryland, and the State Corporation Commission of Virginia by registered mail, and to all other persons by publication in the FEDERAL REGISTER and by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under said act; and

It is further ordered, That Washington Railway and Electric Company mail a copy of the plan for the simplification of its holding company system, together with a copy of this notice and order, to each of its stockholders at his last known address at least 20 days prior to the 18th day of July, 1944.

It is further ordered, That without limiting the scope of the issues presented by the plan, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the plan of Washington Railway and Electric Company, as proposed or as modified, is necessary to effectuate the provisions of section 11 (b) of the act; is fair and equitable to the persons affected thereby; and is necessary or appropriate in the public interest or for the protection of investors or consumers;

2. Whether all of the provisions for the consummation of the plan are fair and equitable and in accordance with the act and the rules and regulations promulgated thereunder;

3. Whether the proposed accounting entries are proper and in accordance with sound accounting principles and practice and in accordance with the standards of the act;

4. Whether the acquisition by Potomac Electric Power Company of all of the capital stock of Braddock Light & Power Company, Incorporated, and of the real property of Great Falls Power Company complies with all of the provisions of section 10 of the act;

5. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors and consumers and consistent

with all applicable requirements of the act and the rules thereunder, and, if not, what modification should be required to be made therein and what terms and conditions should be imposed to satisfy the statutory standards.

By the Commission.
